Job 22nd

Los Angeles Herald

WEDNESDAY, JUNE 9, 1875.

The San Francisco News-Letter, has come out in a new dress and is now one of the finest appearing publications on the coast.

The prospect for a treaty with the Sioux Indians by which the right to mine in the Black Hills will be secured does not seem very flattering. The Sioux are a little reluctant about abandoning their territory and as they number from 3000 to 5000 well armed warriors an attempt to occupy the country without their permission is likely to be attended with consequences more serious than boy's play.

It is now believed that a genuine grasshopper has been found in the upper portion of the Sacramento Valley. Its genus is not yet thoroughly fixed and if the genuine article it is a lame, imperfectly hopping and emaciated specimen. Still it is hoped it will live long enough to enable our late acquisitions from Kansas to write back to that productive land that there is a grasshopper in California.

A Gleam of Light.

It is not of much consequence to the people of this portion of the State and we only refer to the matter in order to demonstrate the correctness of the HERALD's surmise some time ago. We refer to the causes which led to the stealing of the painting "Elaine" from a San Francisco gallery. We said the indications were strong that the theft was a put up job designed by the friends of the painter of "Elaine" Toby Rosenthal, to spread his fame. It now appears there was something in this and we have no doubt but that if the master can be sifted to the bottom it will be made manifest that the celebrated detective who figured so conspicuously in the recovery of the picture and the capturing of the thieves fully understood the programme if he was not an adviser and counselor from the first inception of the plot to the sentence of the plotters. It appears that ALLEN one of the thieves made a confession while in prison to the detectives in which he stated that he was induced to go into the work by the young man MURPHY who afterwards betrayed his companions and aided in bringing about their capture. This confession the detective thought proper to withhold from the public, but the *Call* obtained a clue to the mystery and sent a reporter to San Quinten, where ALLEN is now serving out his sentence, and obtained a copy of the confession which has been printed. If ALLEN tells the truth, and his story is frank and straightforward, MURPHY "put up" the job and this being admitted it is difficult to explain why he did so except on the hypothesis that he was himself "put up" to it by those who sought to spread the fame of TOBY ROSENTHAL.

Misrepresentation.

A gentleman from the East, after traveling somewhat extensively over Southern California with his eyes open, informs the HERALD that in his opinion NORDHOF's book, "Semi-Tropical California," and one or two other publications relative to this part of the State, whose authors have drawn heavily on their imagination for their facts, have done much more toward creating the impression abroad that California is over-estimated than the newspapers. There is some truth in these charges, and it ought to be the duty of the Press to remove as far as possible the errors those florid publications have disseminated. These grandiloquent volumes induce the belief that this is a land of milk and honey and that all a man has to do is to reach here to secure a life of elegant leisure and luxurious ease. This is not true, and the fact that it is not, de-ludes people and injures the country. Persons in the East reading these chapters from the Arabian Nights are led to believe that they need do nothing after reaching this valley and planting a few acres of orange trees, but lay in the shade. Let all such free themselves of the notion as soon as possible, or at least before their departure from their old homes, for if they do not it will fade away like the baseless fabric of a vision very soon after their arrival here. As in every other civilized land, there are but two ways in which an honest man can earn a living here—he must have money or he must work. In too many cases the immigrants to California come with hopes that will never be realized. They have read NORDHOF and they are deceived. Finding themselves so, they fly to the other extreme and write letters home underestimating the country as much as the fancy authors overestimated it. If people sought California in search of a better, and not a great deal better, country than they left, there would be no disappointments. This is a good country; an industrious man with small means cannot find a better. If one is content to sow and reap grain as they do in the East, with a small annual profit, all will be well. There are millions of acres of land in Southern California that will produce good crops of barley without irrigation; and barley, besides being always in demand for feed, is convertible into money by feeding it to stock—cattle and hogs. There is scarcely any land, except the rugged mountains, that will not grow barley. But a man who was born and brought up on the yellow clay soil of an Illinois white-oak point, and who

stirred that yellow clay from the time he was old enough to hold a plow until he left for California, for fifteen bushels of corn per acre, is not content to come here and clear more money in one year from the growth of grain and the raising of stock than he realized from the white-oak point from boyhood to man's estate. We can point out many men who settled in this valley ten years ago without a dollar, who have accumulated property worth from twelve to twenty thousand dollars, and supported their families in the meantime. But they did not do this by planting an orange tree and swear away the time in its shade. Men can do well here, but it does not rain a fresh shower of manna every morning, nor have we a MOSES who draws water from the rocks for the lame and the lazy.

The Amendments.

The proposed Constitutional amendments, which have been published in the HERALD, were prepared by the last Legislature, and if endorsed by the next Legislature, the members of which are to be elected in September next, they will be submitted to a vote of the people at the succeeding general election, and if endorsed they will probably become Constitutional law.

These amendments are long as a moral code, and some of them are objectionable.

For instance, the clause compelling common carriers to move goods one mile at the same rate per mile that they are allowed for moving them fifty or five hundred miles, is impractical. A railroad company is permitted to charge ten cents per mile per ton for carrying freight, and under this clause they could not charge more; yet, for moving this ton of freight the short distance required, they must pay one dollar for loading and unloading. The insertion of this clause will discommode the patrons of the road to the extent of having freight to be carried only a short distance refused by the carriers. There are other equally objectionable sections.

In fact, there is too much of this Constitutional amendment verbiage. It forms a greater bulk than the original document. It is adding such an extensive patch to the old garment that the new cloth entirely hides the old. However, the people have yet two ballot-box chances at these amendments, and in order that they may fire their paper shots advisedly and effectually, we again recommend each voter to carefully consider over. If we must amend the Constitution, let us do the work so that we will not be compelled to immediately amend our amendments.

advance of 100 per cent, and almost immediately after changing bands there is still another advance of 100 per cent, and still there is room for another rise and still another before it is on an equal footing with the lands which I cultivated in the Eastern States, where it took one man to each 25 acres from the first of January to the last of December to cultivate, gather and feed the way the products. And all of this has been done to make pork for the next year and feed the horses and to cultivate the next crop, with a gain for the year of perhaps one calf or half a dozen pigs.

SMALL LAND OWNER.

A Negro Friend.

BALTIMORE, June 7th.—Saturday, near Odenton, a negro outraged Miss Jackson, a young lady of eighteen and most respectably connected, and her parents were absent. She had gone to a spring short distance from the house for water, and while returning was met by a negro, who seized her by the throat and dragged her to some bushes, holding a loaded gun in his hand and threatening to kill her if she resisted. Her clothing was torn in shreds and her face and neck terribly cut and bruised. The negro was captured this morning and confessed the crime. Several attempts were made to lynch him, but his captors got him on the train for Annapolis.

The New Hampshire Contest.

CONCORD, N. H., June 7th.—A hearing was had before the Supreme Court this evening in relation to the Senatorial question. The Court reserved its decision, pending the election by a Governor. It is claimed now that there is no Governor of New Hampshire. It is proposed to swear in the President of the Senate as Governor pro tem. This would leave the Senate without a quorum, which will further complicate matters.

The Pistol and Death.

HAVANA, June 7th.—There was a duel yesterday between Algernon Sydney Curtis of New York and Salvador Cortreals, a tobacco merchant of Havana and New York. The latter accused the former of undue intimacy with his wife. The duel was fought with pistols, and without witnesses. Curtis was shot in the hip and badly wounded. Cortreals then placed his pistol to his head and blew his own brains out.

FIRE in Victoria.

VICTORIA, B. C., June 7th.—A fire at 3 o'clock this morning destroyed the Colonial Hotel, Mansello shoe store, Gilmore's clothing store and the San Francisco barbershop and bath house. The fire originated in the hotel billiard room. The loss is about \$30,000, partially insured.

Reduction of Ocean Fare.

LONDON, June 7th.—The Liverpool Transatlantic Companies have provisionally agreed that the rates for passage by the fast lines shall be five guineas and by the slow lines five per cent, less. A meeting will be held to-day to consider the freight rates.

Fatal Duel.

SALT LAKE, June 5th.—At Lincoln, Southern Utah, J. M. Flinn and J. S. Jacobs fought a duel to-day with six-shooters. Seven shots were fired and Flinn was dangerously wounded, when they clinched. Flinn broke Jacobs' skull with the handle of his pistol.

Fatal Accident.

SAN LUIS OBISPO, June 7th.—About noon to day a man riding to this place on a freight wagon loaded with freight, fell off the load and was picked up insensible. He was brought to the Cosmopolitan hotel, where he immediately expired. Deceased was a passenger by the steamer Constantine, which arrived this morning. He is apparently about forty years of age, is alone and an entire stranger to all. Upon his arrival was found a pair-tax receipt, issued in Mendocino County, March 5, 1875, with the name of Mattingham upon it. The coroner is now holding an inquest upon the body.

Killing at Bakersfield.

BAKERSFIELD, June 7th.—This morning, at the Summer depot, a Mexican named Refugio Salizar stabbed and killed another Mexican named Ramon Abila. The murdered man was trying to pacify Salizar, who was having a difficulty with another man. The murderer escaped. The officers are now in pursuit.

The Santa Barbara Friends.

RENO, June 7th.—Jack Cotton and Mrs. Norton, the Santa Barbara murderers, who were arrested at Wadsworth yesterday, were brought here safely and lodged in the jail. The woman has made a statement to the officers that Cotton shot her husband with a shot-gun, which they have with them, loaded with slugs. Then, under threats against her life, he compelled her to follow him and keep his secret. Cotton doesn't seem at all scared. He says "there is nothing in it and it will all pan out right." Sheriff Jones telegraphed to the Sheriff of Santa Barbara county information of the arrest. The coroner is now holding an inquest to determine the cause of death.

Buried to Death.

SACRAMENTO, June 7th.—Saturday a shocking accident occurred at Coppo ranch, near Antelope, Yolo county. A little child of a man named Howell, who was working the ranch on lease, accidentally set the house on fire. She crawled under the bed with her clothes in flames. Her father ran in to rescue the little one, but in doing this he was so severely burned that he died a short time afterward, as did also the child.

San Francisco Items.

SAN FRANCISCO, June 7th.—In the Board of Supervisors last night the water question was debated to a very late hour. A resolution was finally passed, striking out from the Spring Valley proposition so much as related to the Calaveras Valley. The amended resolution to the Spring Valley then passed to print.

The order prohibiting the carrying of concealed weapons passed to print.

NEW TO-DAY.

To Smokers—Please Take Notice,

That during the month of June I intend to sell out my entire stock of cigars, tobacco, pipes, smoking apparatus, and other goods, greatly reduced prices, in order to make room for an entire new stock to come in next month. Now is your time to buy bargains, and to get the best quality of tobacco and pipes at the lowest prices. At retail you get two Havanas for 15 cts.; the finest brands 3 for 50 cts., 25 cts. each, and 5 for 100 cts. and 150 cts. and 200 cts. in this city at very low figures. This is no humbug. Call in and you will at once be convinced of the above mentioned articles must be sold this month. Don't forget the "Identicals."

GOLD REPORT.

SAN FRANCISCO, June 8
Gold, 103^{1/2}; Buying, 87; selling, 87^{1/2}.

LOCAL BREVIETIES.

The excavation on the site of the National Gold Bank has commenced.

Mr. Arthur Kearney, of the San Bernardino Guardian, is in the city.

Santa Barbara is represented here by Mr. Charles H. Johnson.

The cypress hedge, which Mr. Geo. Davis has on the way, should be in demand, as it is highly ornamental.

Mayor Beaudry tried five drunks yesterday morning and sent them to the street gaol.

Monday, the 1st of November, has been fixed as the opening of the District Fair.

A meeting will be held to-night at 7:30 in the Court House, to arrange for the Fourth of July celebration.

The schooner Eureka is at Santa Monica, discharging 9,000 feet of piles and 300,000 feet of lumber for the wharf.

Mr. Arthur Kearny, the genial editor of the San Bernardino Guardian is in town for a couple of days.

O. Christopher, a Swede, was at the anchorage a few days ago. His body has been recovered and was buried at Wilmington yesterday.

Dr. Houston of Leavenworth, Kansas, is making an examination of our resources and prospects, with a view of making satisfactory investments.

Lyons' Station, on the Telegraph stage line, is to be removed and a large station constructed further North by Krasky Bros.

Marshal Carrillo is bound to break up the pernicious habit of fast riding at any cost. Fast men, please take notice and govern yourselves accordingly.

Captain Kraszynski of Lyons' Station, has been in the city for two days asking of the Supervisors the right of way for a road to the Arroyo Cañon. The Water Supply.

The Council Committee, Messrs. Workman, Wolfskill and Leahy, met yesterday afternoon with a number of our prominent civil engineers, at Messrs. Moore & Kelleher's office to discuss the water supply question.

Among the engineers present were Messrs. Moore, Hansen, Goldsworth, Locke, Rumble, Gaertner, and our respected City Surveyor, Kelleher. After a thorough discussion of the question it was recommended that the City Council appoint a committee of resident engineers, who are to digest and report an improved water system at an early date.

City improvements.

The rage for street improvements still continues. We understand that a petition to have Upper Main street graded through Sonora will be presented at the next Council meeting. In this connection, we would suggest the necessity of widening the street simultaneously with the grading.

Temple street is to be graded from Main to Pearl street, the City Surveyor being engaged in the estimates for the work to be done in front of the city property lately sold.

A gang of men are working on Third street, between Fort and Spring. Fort street is to be graded from Temple to Second street and a grade is to be ordered on New High street. This, in addition to the Main street sewer, makes a very creditable array of street work and is likely to bring us a great deal of trouble.

Two divorce cases were up in the District Court yesterday. It only takes one poor little preacher to marry a couple, but it sometimes takes twelve bodied juries to unmarry them.

The cars for the Main street railway have arrived at Wilmington and will be brought up to-day. They are described as of very fine workmanship, and will certainly be hailed by joy by the residents of Main street.

Among the arrivals yesterday at the St. Charles were A. T. Snell, commander U. S. Navy, and wife; Geo. D. Korts, U. S. steamer Shubrick, and wife; Col. Alexander, U. S. A. and wife; Lt. L. Barnes Shubrick, and wife; Col. Alexander, U. S. A. and wife; and Mr. Geo. E. Moore, of San Bernardino.

We receive every day letters from the East stating that the writers have had anonymous communications dated Los Angeles, full of bitter denunciation of our city and warning intending immigrants to beware. Who are the writers of those letters?

The Southern Minstrels last night had a respectable audience and gave an irreproachable entertainment.

Present—President Hines; Supervisors Allen, Evey and Palomares.

The Board have transacted the following business:

The votes were canvassed in the election in Water District No. 2, Anaheim, as follows: David Evey, John Fisher and A. Langenberg elected Commissioners, and W. W. Curtis Overseer. Tax, "yes," 19; "no," 6.

In District No. 3 (Azusa Duarre) W. H. Bowman, L. Barnes and A. L. Wilson were elected Commissioners. No tax submitted.

A committee of the Common Council of Los Angeles city met the Board of Supervisors and submitted propositions in regard to fire engine and hose carriage, and consulted informally upon the erection of a public building for both the city and the county.

The reports of the County Treasurer and the County Auditor for the month of May were submitted and referred to the Finance Committee.

In the matter of the proposed bridge over the Vega Honda, bids were opened with the following result: Stevenson & Co., \$1,068; Wade & Co., \$840; Hayes & Co., \$938. No action.

The matter of Santa Anita road No. 2, Green Meadows road No. 5, and Denman road, are under consideration, and have taken up all yesterday.

In answer to inquiries propounded we will say: 1. Land can be bought near Los Angeles from \$10 per acre upwards, on favorable terms. 2. There is water accessible for irrigating nearly all the land, but some of it does not need irrigation. 3. A young man of industrious habits, with \$1,500 to \$2,000 cash, would do well in anything for which he was adapted. 4. An orange orchard commences to bear in eight years, and the price of plants varies with their age; but they are as cheap as any fruit trees East. Apples and peaches do well here. 5. As we have a succession of crops, the immigrant can come at any season and do well.

We can only repeat to Mr. Kellogg that land can be bought at \$10 and upwards. Nearly every day we note that government land has been taken up, and there is still some left for actual settlers at government rates. We ask it as a special favor that intending immigrants send one of their number to the city and the county.

In the matter of the proposed bridge over the Vega Honda, bids were opened with the following result: Stevenson & Co., \$1,068; Wade & Co., \$840; Hayes & Co., \$938. No action.

The matter of Santa Anita road No. 2, Green Meadows road No. 5, and Denman road, are under consideration, and have taken up all yesterday.

In answer to inquiries propounded we will say: 1. Land can be bought near Los Angeles from \$10 per acre upwards, on favorable terms. 2. There is water accessible for irrigating nearly all the land, but some of it does not need irrigation. 3. A young man of industrious habits, with \$1,500 to \$2,000 cash, would do well in anything for which he was adapted. 4. An orange orchard commences to bear in eight years, and the price of plants varies with their age; but they are as cheap as any fruit trees East. Apples and peaches do well here. 5. As we have a succession of crops, the immigrant can come at any season and do well.

Los Angeles Herald

WEDNESDAY, JUNE 9, 1875.

THE San Francisco *News-Letter*, has come out in a new dress and is now one of the finest appearing publications on the coast.

The prospect for a treaty with the Sioux Indians by which the right to mine in the Black Hills will be secured does not seem very flattering. The Sioux are a little reluctant about abandoning their territory and as they number from 3000 to 5000 well armed warriors an attempt to occupy the country without their permission is likely to be attended with consequences more serious than boy's play.

It is now believed that a genuine grasshopper has been found in the upper portion of the Sacramento Valley. Its genus is not yet thoroughly fixed and if the genuine article it is a lame, imperfectly hopping and emaciated specimen. It is hoped it will live long enough to enable our late acquisitions from Kansas to write back to that productive land that there is a grasshopper in California.

A Gleam of Light.

It is not of much consequence to the people of this portion of the State and we only refer to the matter in order to demonstrate the correctness of the HERALD's surmise some time ago. We refer to the causes which led to the stealing of the painting "Elaine" from a San Francisco gallery. We said the indications were strong that the theft was a put up job designed by the friends of the painter of "Elaine" Toby Rosenthal, to spread his fame. It now appears there was something in this and we have no doubt but that if the master can be sifted to the bottom it will be made manifest that the celebrated detective who figured so conspicuously in the recovery of the picture and the capturing of the thieves fully understood the programme if he was not an adviser and counselor from the first inception of the plot to the sentence of the plotters. It appears that ALLEN one of the thieves made a confession while in prison to the detectives in which he stated that he was induced to go into the work by the young man MURPHY who afterwards betrayed his companions and aided in bringing about their capture. This confession the detective thought proper to withhold from the public, but the *Call* obtained a clue to the mystery and sent a reporter to San Quinten, where ALLEN is now serving out his sentence, and obtained a copy of the confession which has been printed. If ALLEN tells the truth, and his story is frank and straightforward, MURPHY "put up" the job and this being admitted it is difficult to explain why he did so except on the hypothesis that he was himself "put up" to it by those who sought to spread the price of Land.

stirred that yellow clay from the time he was old enough to hold a plow until he left for California, for fifteen bushels of corn per acre, is not content to come here and clear more money in one year from the growth of grain and the raising of stock than he realized from the white-oak point from boyhood to man's estate. We can point out many men who settled in this valley ten years ago without a dollar, who have accumulated property worth from twelve to twenty thousand dollars, and supported their families in the meantime. But they did not do this by planting an orange tree and swear away the time in its shade. Men can do well here, but it does not rain a fresh shower of manna every morning, nor have we a MOSES who draws water from the rocks for the lame and the lazy.

The Amendments.

The proposed Constitutional amendments, which have been published in the HERALD, were prepared by the last Legislature, and if endorsed by the next Legislature, the members of which are to be elected in September next, they will be submitted to a vote of the people at the succeeding general election, and if endorsed they will probably become Constitutional law.

These amendments are long as a moral code, and some of them are objectionable. For instance, the clause compelling common carriers to move goods one mile at the same rate per mile that they are allowed for moving them fifty or five hundred miles, is impractical. A railroad company is permitted to charge ten cents per mile per ton for carrying freight, and under this clause they could not charge more; yet, for moving this ton of freight the short distance required, they must pay one dollar for loading and unloading. The insertion of this clause will discommode the patrons of the road to the extent of having freight to be carried only a short distance refused by the carriers. There are other equally objectionable sections. In fact, there is too much of this Constitutional amendment verbiage. It forms a greater bulk than the original document. It is adding such an extensive patch to the old garment that the new cloth entirely hides the old. However, the people have yet two ballot-box chances at these amendments, and in order that they may fire their paper shots advisedly and effectually, we again recommend each voter to carefully consider over, If we must amend the Constitution, let us do the work so that we will not be compelled to immediately amend our amendments.

Reduction of Ocean Fare.
HANAVIA, June 7th.—There was a duel yesterday between Alphonso Sydney Curtis of New York and Salvador Cortreals, a tobacco merchant of Havana and New York. The latter accused the former of undue intimacy with his wife. The duel was fought with pistols, and without witnesses. Curtis was shot in the hip and badly wounded. Cortreals then placed his pistol to his head and blew his own brains out.

BALTIMORE, June 7th.—Saturday, near Odenton, a negro named Miss Jackson, a young lady of eighteen and most prettily dressed, went to the races. Her parents were absent. She had gone to a spring a short distance from the house for water, and while returning was met by a negro, who seized her by the throat and dragged her to some bushes, holding a loaded gun in his hand and threatening to kill her if she resisted. Her clothing was torn in shreds and her face and neck terribly cut and bruised. The negro was captured this morning and confessed the crime. Several attempts were made to lynch him, but his captors got him on the train for Annapolis.

The New Hampshire Contest.

CONCORD, N. H., June 7th.—A hearing was had before the Supreme Court this evening in relation to the Senatorial question. The Court reserved its decision, pending the election by a Governor. It is claimed now that there is no Governor of New Hampshire. It is proposed to swear in the President of the Senate as Governor pro tem. This would leave the Senate without a quorum, which will further complicate matters.

The Pistol and Death.

HANAVIA, June 7th.—There was a duel yesterday between Alphonso Sydney Curtis of New York and Salvador Cortreals, a tobacco merchant of Havana and New York. The latter accused the former of undue intimacy with his wife. The duel was fought with pistols, and without witnesses. Curtis was shot in the hip and badly wounded. Cortreals then placed his pistol to his head and blew his own brains out.

Fires in Victoria.

VICTORIA, B. C., June 7th.—A fire at 3 o'clock this morning destroyed the Colonial Hotel, Mansello shoe store, Gilmore's clothing store and the San Francisco barbershop and bath house. The fire originated in the hotel billiard room. The loss is about \$30,000, partially insured.

Reduction of Ocean Fare.

LONDON, June 7th.—The Liverpool Transatlantic Companies have provisionally agreed that the rates for steerage passage by the fast lines shall be five guineas and by the slow lines five per cent, less. A meeting will be held to-day to consider the freight rates.

A Utah Duel.

SALT LAKE, June 7th.—At Lincoln, Southern Utah, J. M. Flinn and J. S. Jacobs fought a duel to-day with six-shooters. Seven shots were fired and Flinn was dangerously wounded, when they clinched. Flinn broke Jacobs' skull with the handle of his pistol.

Fatal Accident.

SAN LUIS OBISPO, June 7th.—About noon to-day a man riding to this place on a freight wagon, loaded with freight, fell off the load and was picked up unscathed. He was brought to the Cosmopolitan hotel, where he immediately expired. Deceased was a passenger by the steamer Constantine, which arrived this morning. He is apparently about forty years of age, is alone and an entire stranger to all. Upon his person was found a poll-tax receipt, issued in Meudocino county March 5, 1875, with the name of Mattingly upon it. The Coroner is now holding an inquest upon the body.

Killing at Bakersfield.

BAKERSFIELD, June 7th.—This morning, at the Summer depot, a Mexican named Refugio Salazar stabbed and killed another Mexican named Ramon Abijo. The murdered man was trying to pacify Salazar, who was having a difficulty with another man. The murderer escaped. The officers are now pursuing him.

The Santa Barbara Fiends.

RENO, June 7th.—Jack Cotton and Mrs. Norton, the Santa Barbara murderers, who were arrested at Wadsworth yesterday, were brought here safely and lodged in the jail. The woman has made a statement to the officers that Cotton shot her husband with a shotgun which they have with them, loaded with slugs. Then under the influence of her life, he compelled her to follow him and keep his secret. Cotton don't seem at all scared. He says "there is nothing in it and it will all pan out right." Sheriff Jones telegraphed to the Sheriff of Santa Barbara county information of the arrest. The latter starts for this place to-day.

Buried to Death.

SACRAMENTO, June 7th.—A shocking accident occurred at Copeland, near Antelope, Yolo county. A little child of a man named Howell, who was working the ranch on lease, accidentally set the house on fire. She crawled under the bed with her clothes in flames. Her father ran in to rescue the little one, but in doing this he was so severely burned that he died a short time afterward, as did also the child.

Sacramento Items.

SAN FRANCISCO, June 7th.—In the Board of Supervisors last night the water metering was debated to a very late hour. A resolution was finally passed, striking out from the Spring Valley proposition so much as related to the Calaveras Valley. The amended resolution as to the Spring Valley then passed to print.

LOCAL BREVIETIES.

The excavation on the site of the National Gold Bank has commenced.

Mr. Arthur Kearney, of the San Bernardino *Guardian*, is in the city.

Santa Barbara is represented here by Mr. Charles H. Johnson.

The cypress hedge, which Mr. Geo. Davis has on the way, should be in demand, as it is highly ornamental.

Mayor Beaudry tried five drunks yesterday morning and sent them to the street gaol.

Monday, the 1st of November, has been fixed as the opening of the District Fair.

A meeting will be held to-night at 7:30 in the Court House, to arrange for the Fourth of July celebration.

The schooner Eureka is at Santa Monica, discharging 9,000 feet of piles and 300,000 feet of lumber for the wharf.

Mr. Arthur Kearney, the genial editor of the San Bernardino *Guardian* is in town for a couple of days.

O. Christopher, a Swede, was drowned at the anchorage a few days ago. His body has been recovered and buried at Wilmington yesterday.

Dr. Houston of Leavenworth, Kansas, is making an examination of our resources and prospects, with a view of making satisfactory investments.

Lyons' Station, on the Telegraph stage line, is to be removed and a large station constructed further North by Kraszynski Brothers.

Marshal Carrillo is bound to break up the pernicious habit of fast riding at any cost. Fast men, please take notice and govern yourselves accordingly.

Captain Kraszynski of Lyons' Station, has been in the city for two days asking of the Supervisors the right of way for a road to the Arroyo Cañon. He left this morning for home.

Our efficient City Clerk, M. Kremer, Esq., announced himself as a candidate for Tax Collector. Mr. Kremer's extensive acquaintance with municipal affairs entitles him to much consideration.

The City Surveyor and Council Committee are actively engaged in studying different systems of sewerage, with a view to improving our city sewers. We understand that a location has been selected into which the sewage of the city is to be emptied, with a view of relieving the sewer pipes of the mass of filth that now has no outlet.

Last night a bare-headed stranger reported that he had been attacked while walking along the East side of Spring street, between Third and Fourth, and been considerably scratched and bruised, besides losing his hat. On returning to the scene of the assault, I enquired of the man's plug hat which I enquired to you, that the paper containing it, I suppose, has already been sent you. You ask for information concerning this part of Cal., both for yourself and for the families in your vicinity who contemplate removing here.

MR. KELLOGG—*Dear Sir.* This morning on picking up the Los Angeles HERALD of May 8th, 1875, I read the article (editorial), I take it to be which I enquire to you, that the paper containing it, I suppose, has already been sent you. You ask for information concerning this part of Cal., both for yourself and for the families in your vicinity who contemplate removing here.

My blood boiled within me when I read the effusion of lies contained in that article, and I immediately resolved, for the sake of those dear Illinois *families* who desire to come to California, to drop a word of friendly warning, and that must be my excuse for addressing you. Nearly two yrs. ago we sold our beautiful home in Central Illinois to the tune of \$5,000 and came to Los Angeles. We, too, had been reading up Cal.; had read Nordoff and had sent for papers, and obtained all the information in our power—we felt very sure we would like it here, and did what hundreds of others are doing—sacrificed much to come. But we have learned since here that the bright side of things only comes out in print. The dark side is wisely kept back by these land speculators, who stand just ready to fleece every man from the East on his arrival here.

Now, I am certain that there is no land "near Los Angeles" that can be bought for \$10 an acre, and I am equally certain that there is no land "near Los Angeles" where water can be obtained for irrigating such land that can be bought for \$100 per A. Unimproved land "near Los Angeles" say—a mile from C. H. that can be irrigated—is sold for \$200 to \$500 an A. An A. acre is not "well suited" according to his moral worth.

Resolved. That copies of these resolutions be presented to Messrs. Goldstein and P. Davis & Bro., bearing the signatures of the citizens of this community, and that Mr. Goldstein be hereby respectfully requested to remain away from Orange, or to establish some business here other than that of saloon keeping.

Resolved. That a committee be appointed to convey the people's remonstrance to the parties mentioned in resolution third.

Resolved. That copies of these resolutions be furnished the Anaheim *Gazette*, the Los Angeles HERALD, the *Semi-Tropical Farmer* and the *Mirror* for publication.

Resolved. That copies of these resolutions be presented to Messrs. Goldstein and P. Davis & Bro., bearing the signatures of the citizens of this community, and that Mr. Goldstein be hereby respectfully requested to remain away from Orange, or to establish some business here other than that of saloon keeping.

Resolved. That copies of these resolutions be presented to the City Council meeting, and that they be voted upon in the interest of the "land companies," to induce emigration hither. Don't rely on what you read in the California papers for information concerning this place. If you are one of families who live here, if you are a member of families who live here, come first and look for yourselves, and if such like it, secure a home and then go back for your *families*; it will be cheaper to do that, and you will afterward see the wisdom of this advice—unless, indeed, you should all be worth from \$25,000 to \$50,000, then bring your *families* with you and pad your own canoes after getting here.

Several of our relatives and friends purposed on moving here if we "liked it," but we have written to them times and again "to stay where they are happy." Now, my bro. "sucors," if these few hints will do you any good, you are welcome to them; but remember, if you come to Los Angeles, and that is not likely to move around in your midst and perhaps sell your farm.

Your obedient servant,
JOHN F. LOCKHART, Pres't.
A. JOHNSTON, Sec'y.

The Los Angeles papers are down on any or every person who comes here and says or writes anything derogatory to the country, and they accordingly give them a blow up. They are doing all they can in the interest of the "land companies," to induce emigration hither. Don't rely on what you read in the California papers for information concerning this place.

The rage for street improvements still continues. We understand that a petition to have Upper Main street graded through Sonora will be presented at the next Council meeting. In this connection, we would suggest the necessity of widening the street simultaneously with the grading. Temple street is to be graded from Main to Pearl street

Farmers are joyful. This long continued cloudy weather has a most beneficial result on the crops. We may, we believe, confidently look forward to an average crop of both barley and wheat. As to hay, we believe the crop will be heavy. In those districts in which the farmers sowed early, there will be no failure—another convincing argument in favor of early planting. We wonder when farmers will profit by their agricultural experiments?

[From the Argus of June 4th.]

As Mr. Hight, of the firm of Goldsmith's bail bond to \$10,000, he had to go to jail. After all, much sympathy is felt for him here. No one believes that he had any intention to commit the rash act. It speaks volumes in his favor that the people of the Rincon unanimously sympathize with him in his misfortune. The man feels terribly from remorse, too. Another deplorable effect of carrying weapons.
